It's time for a new crop of idols as the February releases begin to drop. L.A. Reid will debut his new girl group Dream Girls later this month and a couple new faces will be joined in the same genre on Hot 97. Check out the latest additions to the Big Boyz of hip-hop here. Recently, our friends over at the New York Post gave us the heads up on the latest report that New Orleans rapper, Louis Alexander is in the recording studio working with Beyonce. The New York Post reports that Beyonce has been working with Louis on his upcoming album, "Roc Talk", which is slated to come out this year. Louis Alexander's album, "HipHop U", was released in December of 2005, while Jay-Z and Beyonce's "The Blueprint" was released in August of 2004. At this point, Louis Alexander has not released any singles off of "Roc Talk", so it will be interesting to see how things play out. High salt intake and excessive activity of adrenal catecholamines are important causes of hypertension. However, essential hypertension is rarely observed in animals that were fed salt-rich diets and those that received adrenalectomy. We therefore hypothesized that an unrecognized mechanism could be involved. We show here that a novel mechanism, termed sodium-dependent hypertension 82157476af
